SUPPLEMENT TO REPORT NO.

25X1X

25X1A

On 6 September 1950 it was learned that the Cottbus (N 52/A 57) railroad station has been improved since 1 September 1950. * Six of the 10 tracks that had been dismantled are to be rebuilt. The improvement of the station, which was ordered by the Soviets, must be completed by the end of 1950. **

25X1A

Comment. The Cottbus railroad station is of importance as a railroad junction in the Lusatian brown coal and industrial area and as a collection point and railroad central for the traffic to and from Poland via the Guben, Forst and Horka/Hehrkirch border crossing points.

25X1A

Comment. It is not believed that it will be possible to complete this project within the given time as the required small fittings are not available in adequate quantities.

this document is hereby regraded to CONFIDENCIAL in accordance with the letter of 10 Cotober 1978 from the Director of Central intelligence to the Archivist of the United States.
